## SEEK ABOLITION OF SAN CARLOS INDIAN AGENCY

MIAMI, April 24.—Abolition of the San Carlos Indian Reservation, or at least a material reduction of the size of the agency, will be sought by Globe business men upon the occasion of the visit to this district of a sub-committee of the congressional committee on Indian affairs, which is scheduled to arrive in the county seat on the night of May 23. The news of the contemplated visit of the sub-committee was received this morning by Judge G. W. Shute. This request will be based upon the fact that the development of the state has been retarded by the fact that approximately 50 per cent of best lands at present is withheld from the public and retained by the government as forest reserves or Indian reservations.

### COUNTY SHERIFF

#### IS HIS CONFESSOR

PHOENIX, April 24.—In accordance with the quotation "Be ye reconciled to God," which he has printed over the return address, a former resident of Maricopa county, now residing at Tabor, Iowa, has written the following letter to Sheriff Montgomery, under a letter head consisting of a verse from 1 John, 3:6.

Tabor, Iowa, April 17, 1920.  
Kind Sir:  
"I am, with the Lord's help, straightening up my past life because I want to be ready to meet Jesus."

I have some confessing to do to you. Two years ago this summer we had some trouble with a Mexican, and I carried a gun quite a while, although it was against the law. If there is a fine or anything please let me know, if not, please pardon me for it.  
Yours truly,

JOHNS, April 22.—Big excitement has been created by the report of drillers who were engaged in sinking a well for water on the Brinkley ranch, 18 miles southeast of St. Johns, that they bored into real oil at a depth of only 270 feet—just a seepage, but the real stuff and no mistake. Springerville business men have already organized a company, secured a large body of land and announced their intention of buying a complete new rig with which to drill.

### Cataract Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by a constitutional remedy. Catarrh of the Eustachian Tube is caused by inflammation of the mucous lining of the Eustachian Tube. When this tube is inflamed, it is swollen and the drainage of the secretion is blocked. The information can be reduced and this tube restored to its normal condition, hearing will be restored. Unless the cause of deafness is caused by catarrh, which is an inflamed condition of the mucous surface, Halls Catarrh Cure acts thru the blood on the mucous surfaces of the system. We will give One Hundred Dollars for any case of Catarrh of the Eustachian Tube that cannot be cured by Halls Catarrh Cure. Circulars free. Also Druggists.

### PLAN TO WATER

#### BIG LAND AREA

DOUGLAS, April 23.—Last night at an enthusiastic meeting of Sulphur Springs valley land owners, it was decided to carry forward with all possible speed the proposal to install a great pumping plant some where in the rich valley to lift water to irrigate a large section of land at present not under cultivation.

The meeting was one of a number of gatherings held within the last few months to discuss ways and means to reclaim the thousands of acres of rich land north of Douglas. A. Y. Smith of Pearce has been devoting considerable attention to the subject, and he has prepared estimates of the cost of a power plant and outlined the kind of a plant that will be needed.

Organization of the Sulphur Spring Valley Development association was made at the meeting, everyone present affiliating himself with it, so that today it has a membership of between 50 and 60. A. Y. Smith was chosen chairman and T. J. Leeson, secretary.

The plan of the organization for the immediate future will be to obtain more members, first of all, extending itself through the valley. In addition it will ascertain definitely the limits of its usefulness by making a careful canvass of the valley and ascertaining from each farmer the number of acres he has in cultivation, the horsepower of the engine he uses and the size of his pump. In addition each farmer's uncultivated acreage will be listed.

Mr. Smith, who was in Douglas yesterday, explained the enterprise in a brief way. It is estimated the plant necessary for the proposition outlined will cost \$5,000,000 and he said he believed arrangements could be made for raising the money.

It is proposed to have the land owners give their acreage as security for bonds to be issued to secure the funds. For 50-foot wells, the depths which it is the intention to go, the cost an acre would be \$8 a year. This is based on an annual outgo of \$1,500,000 for depreciation, interest and redemption. This is much less than the owners of land in the Salt river valley have to pay and the land in the Sulphur Springs valley is far more valuable than the far-famed soil of Maricopa county.

Should there be no obstacles to prevent the project from being completed, the great Sulphur Springs valley will become the richest agricultural area in the southwest, and Douglas will benefit more than any other city. Mr. Smith, T. J. Leeson and other prominent men in the valley have been working on the power house proposition for several months and, should it become a reality, the credit for the great accomplishment will belong to them.

### "PEACEFUL PICKETING" CASE

#### TO BE HEARD IN U. S. COURT

PHOENIX, April 23.—The famous Billy Trux case involving the constitutionality of the Arizona peaceful picketing law will be argued in the supreme court of the United States next week, according to a notice received today by Wiley E. ### VERDICT OF \$1400

#### IN SHUTE CASE

GLOBE, April 23.—The jury trying the suit brought against the city by George E. Shute for \$1,995.05, returned a verdict at 10:45 for \$1,400 in favor of Mr. Shute. The original amount asked had been reduced during the trial to \$1,520.57, and the amount awarded by the jury was decided upon after nearly six hours' deliberation. The plaintiff in the case was the proprietor of the Palace garage, which was damaged in the flood of July 14, 1919.

### G. A. R. IN OVERALLS

PHOENIX, April 23.—A speech praising the "overalls movement" by George Barrows, who was cheered when he appeared in denim attire, featured a picnic today of civil war veterans, the closing event of the 33rd annual encampment of the Arizona department of the G. A. R. Veterans from various parts of the state attended.

### ADOPT BRANCHES OF

#### BANKHEAD HIGHWAY

The annual meeting of the Bankhead Highway association, held in Hot Springs, Ark., served to upset the plans of the late Senator Bankhead, who in the Crazy Wells Hotel lobby at Mineral Wells, Tex., last April stated most positively that "there can be but one Bankhead Highway—it is a highway, not a system."

But now it is a system, because the association opened up the matter by admitting several branches at the session just held at Hot Springs. There are two branches in Arizona the scenic highway via Roosevelt dam and the Bankhead Military loop via Nogales from Tombstone.

The main line, however, remains recommended by the engineers over the Borderland route via Benson. This will be the main line and the first to receive federal aid if present plans prevail.

The register shows 900 delegates present this year on Thursday of Convention Week.

The high handed system of "selling" votes is doomed for the discard. Texas was conspicuous by its absence, as only 31 delegates were registered from the Lone Star state, while Arizona showed up with 30, being fifth on point of attendance. Oklahoma and Arkansas supplied 532 of the 900 present.

The meeting seemed to be a love feast of politicians instead of a good roads meeting. Dell Potter, of Clinton, Ark., gave an explanation of how and why the Bisbee deportations occurred in 1917, and wound up by saying "You people would have done the same under the same circumstances, wouldn't you?" The audience of nearly two thousand cheered wildly, while most of us Arizonians just observed and "smiled." The I. W. W.'s got it pretty hard from all the speakers.

Vice President Marshall made a fine speech and delivered a fine moral—If every locality expects to get the main line right by its door it will develop a fight and you'll get no more federal aid," and he closed saying: "Build your main lines first." The Townsend bill found no supporters in any resolutions.

#### IN FARM LOAN ASS'N.

CHANDLER, April 23.—County Agricultural Agent H. C. Heard addressed a meeting of farmers in the office of the J. L.
